G1

(c) G₃

f(1) = 1

$$f(2) = 2$$

$$f(3) = 6$$

$$f(4) = 7$$

$$f(5) = 10$$

$$f(6) = 9$$

$$f(7) = 5$$

$$f(8) = 4$$

$$f(9) = 3$$

$$f(10) = 8$$

These values were derived from 61 and 64.

(b) G₂

.10

(d) G₄

Wondering how the values were achieved

G4

Does not seem obvious to me.
